

Microfiber Brings Clean to You

Why Microfiber

Cintas Microfiber provides a complete cleaning solution: dust and wet mops for floor cleaning and dusters and wipers for surface cleaning. Multiple sizes, colors and tools mean your entire facility can benefit from the many advantages of microfiber, including:

- Cleans Better: Removes more dust, dirt and microbes than conventional cleaning products
- Cost Effective: Uses less water and chemicals than traditional products (U.S. EPA)
- Helps Reduce Cross-Contamination: Use a new mop for each area to avoid spreading soils throughout the building

Availability Assured with Cintas Service

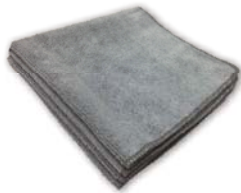

With Cintas Microfiber Service, freshly laundered wipers, mops and dusters are delivered and stocked in the quantities you need. You benefit from an organized and efficient cleaning method based on your facility's actual needs. It's faster cleaning with smarter tools, reliable Cintas service, and the advantages of microfiber working for you every day.

MICROFIBER: Faster, Cleaner, Smarter

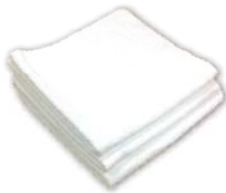

Keeping your facility clean isn't one job – it's many jobs. Wet mopping. Dusting. Wiping. Spot cleaning. Cintas helps you stay **READY™** with the right microfiber cleaning tool for each task and area, in the quantity you need, to help you maintain the clean image you want, effectively and efficiently.

SURFACE

Separate microfiber wipers and dusters ensure the right tool for the job.

Gray Wiper

White Wiper

Flexible Dusting Wand

Wipers: Use gray wiper for heavy soil areas and white for lighter soil environments

FLOOR

Fresh mop for each area vs. spreading soils and contaminants, to help avoid cross contamination.

Microfiber Tube Mop

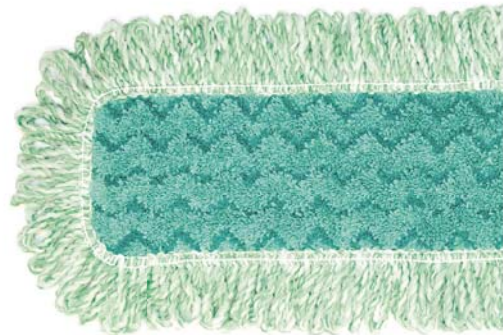

20" Gray Microfiber Flat Mop

18" Microfiber Dust Mop

36" Microfiber Dust Mop

High pile and looped fringe construction grabs and holds larger dust particles and debris

TOOLS

Interchangeable, Quick-Connect frames that connect to the same handle, saving time and space on the cart.

Quick-Connect Frames

Spot-and-spill cleaning — using the Cintas Pulse Mop with microfiber head and cleaning solution on-board.

Separate bucket for soiled water reduces cross-contamination and preserves quality of cleaning chemical.
