- Work all problems on clean sheets of notebook paper with a #2 pencil. No INK!
- Show work where indicated.
- Follow all directions to each set of problems.
- This work is independent work. However, you may enlist the help of a tutor on *concepts*, but not specific problems in this packet. Having someone help you with the specific problems in this packet will be considered cheating.
- You will submit this packet to your geometry teacher on the first day of class.
